DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination (RCE) under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 22, 2010, has been entered.
2. In the RCE on December 22, 2010, no amendments were made to the claims. Claims 1, 14 and 27 are independent claims. Claims 1, 12-14, 25-27, and 38-42 are currently pending in this application.

Information Disclosure Statement (IDS)

3. The information disclosure statement (IDS) filed on 12/22/2010 is in compliance with the provisions of 37 CFR 1.97 and have been considered.

Drawings

1. Drawings filed on 09/11/2003 are accepted.

Specification

2. Specification filed on 09/11/2003, is considered and accepted.
- Amendment to the specification filed on 10/20/2010 is considered and entered.

Allowable Subject Matter

3. Claims 1, 12-14, 25-27, and 38-42 are allowed.

The following is the statement of reasons for allowance.

With respect to claim 1, the prior art of record, alone or in combination, does not teach or fairly suggest the combination of steps as recited in the claim.

Prior art of record does not teach the following limitations:

“the grid participation module corresponding to a grid master comprises instructions for selecting a slave node to process a resource request and instructions for forwarding the resource request to the slave node” and “the grid participation module corresponding to the slave node comprises instructions for receiving the resource request from the grid master and instructions for processing the resource request”.

The dependent claims of claim 1, being definite, further limiting, and fully enabled by the specification are also allowed.

As per claim 14, the prior art of record, alone or in combination, does not teach or fairly suggest the combination of steps as recited in the claim. Prior art of record does not teach the following limitations:

“the grid participation module corresponding to a grid master comprises instructions for selecting a slave node to process a resource request and instructions for forwarding the resource request to the slave node” and “the grid participation module corresponding to the slave node comprises instructions for

receiving the resource request from the grid master and instructions for processing the resource request”.

The dependent claims of claim 14, being definite, further limiting, and fully enabled by the specification are also allowed.

Claim 27 and its dependent claims are directed to “*computer readable storage medium*”, which is interpreted in light of Applicant's amendment to paragraph [0059] of the specification submitted on 10/20/2010, which recites “Computer readable storage medium includes non-volatile media and volatile media. Non-volatile media includes, for example, optical or magnetic disks, such as storage device 510. Volatile media includes dynamic memory, such as main memory 506”. Therefore, “computer readable storage medium” as recited in claim 27 and its dependent claims are statutory.

As per claim 27, the prior art of record, alone or in combination, does not teach or fairly suggest the combination of steps as recited in the claim. Prior art of record does not teach the following limitations:

“the grid participation module corresponding to a grid master comprises instructions for selecting a slave node to process a resource request and instructions for forwarding the resource request to the slave node” and “ the grid participation module corresponding to the slave node comprises instructions for receiving the resource request from the grid master and instructions for processing the resource request”.

The dependent claims of claim 27, being definite, further limiting, and fully

Art Unit: 2162

enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reason for Allowance".
